About SLD

In an increasingly dynamic and demanding world, our mission is to equip students with the skills required to be successful and independent learners during their time at Trinity, and after they graduate.

We are a team of expert academic learning developers who provide **FREE** workshops and events on a range of essential academic and learning skills throughout the year. We see students on a one-to-one basis for more specific queries by appointment or at our drop-in clinics.

Finally, we collaborate with academic departments to deliver tailored academic skills workshops for students.
